

A self-service smart wheelchair solution

**Your patients, passengers and
customers need instant
access to wheelchairs.**

Do you know where yours are?

Patients, passengers and customers and staff generally lack simple, direct access to wheelchairs. Instead, they need to search or wait for availability.

We are a **self-service** wheelchair solution that optimises business operations, reduces costs, increases **efficiency** and enhances guest experience through modular, aesthetic and **user-friendly** stations.
